**WHO USES THE SOLUTION?**

- Account Managers
- Supply Chain Managers

# Account Management

Qmuzik Account Management offers a feature-rich solution designed to meet the needs of fund managers, account holders and portfolio manager. Through flexible embedded workflow with other Qmuzik solutions it ensures proactive fiscal control as well as curbs fraudulent transactions.

The need for real-time workflow based account/fund management to enforce fiscal control and prohibit fraudulent transactions has prompted this functionality. This module is a focused derivative of the well proven bWyz product suite, with added features that make it even more effective in preventing fraud.

## BENEFITS

- ✓ A detailed audit trail exists regarding all transactions, expenses, transfers, deposits etc. by account.
- ✓ Account-holders and/or contributors enquire on all transactions and balances.
- ✓ The convenience of having prepaid services (airtime, electricity etc.) directly on the web.
- ✓ Workflow based alerts (SMS, email) for you to be kept updated at all times.

## SYSTEM FEATURES

- ✓ Management of individual money accounts.
- ✓ Account Holders can be either natural persons or institutions.
- ✓ Transfer limits, warning and stop limits can be set to manage the account.
- ✓ Fund tokens facilitate and authorise expenditure. These tokens support card swipes, pins, username and password and biometrics i.e. fingerprints.
- ✓ Configurable loyalty / accolade management system with appropriate management.
