WHO USES THE SOLUTION?

- Fund Managers
- Portfolio Managers
- Account Managers

E-Wallet

Qmuzik's E-Wallet solution is designed to meet the needs of a broad range fund managers, account holders and portfolio managers. With flexible embedded workflow features that work in tandem with other Qmuzik modules it ensures proactive fiscal control while integrating seamlessly into your company structure for easy access at any time.

The Qmuzik E-Wallet is a feature rich, real time workflow based account & fund management system that facilitates cashless campuses with an integrated billing engine. This module has been developed from proven bWyz product suite which makes it perfect for your business needs.

BENEFITS

- ✓ You can limit expenditure within user defined commodities/beneficiary.
- ✓ Budgets/expenditure/transfer limits may exist for an account.
- ✓ Transfer limits, warning and stop limits can be set to manage the account.
- ✓ Accounts can be replenished via different contributors/fund providers.
- ✓ Fund tokens facilitate and authorize expenditure.
- ✓ A detailed audit trail exists regarding all transactions, expenses, transfers, deposits etc. by account.

SYSTEM FEATURES

- ✓ The configurable Billing Engine facilitates the interface to external/legacy general ledger with user defined journal content.
- ✓ Fund tokens support card swipes, pins, username and password and biometrics i.e. fingerprints.
- ✓ Highly configurable Loyalty/Accolade management system with real-time accrual of rewards.

*Orchestrate Your Business With
Integrated Technology*
