# Equipment Base

The **Qmuzik Equipment Base** solution is a comprehensive tool that offers many features to help identify and manage equipment in your company. It will also keep track of preventative maintenance schedules, history on physical location for any problems with the asset as well as corrective actions taken when necessary.

The functionality of the **Equipment Base** provides a database that can be managed from its initial procurement, installation and commissioning through to lifecycle with user definable statuses.

## BENEFITS

- ✓ Complete visibility of the equipment utilisation.
- ✓ Full audit trail of all changes to its status spanning its useful life and eventual disposition.
- ✓ The equipment base facilitates scheduled and un-scheduled maintenance of the equipment.
- ✓ Visual aids can be electronically linked to equipment base records.

## SYSTEM FEATURES

- ✓ Failure Reporting.
- ✓ Maintenance Workflow.
- ✓ Maintenance activities.
- ✓ Integration with Logistical support data.
- ✓ Seamless integration with other modules.
- ✓ Actions for denomination of life.
- ✓ Multiple Denomination Of Life.
- ✓ Installed Equipment Base.
- ✓ Structured database of equipment.
- ✓ Online Visibility.

*Orchestrate Your Business With  
Integrated Technology*
