

FINCLUDE

Mobile Solutions

WHO USES THE SOLUTION?

- Distribution Managers
- Merchants

Finclude (Tym2Sell)

Finclude is a cutting-edge enterprise class e wallet system with an innovative, mobile focus. With an extremely low transaction cost model, **Finclude** has created a platform that will allow for next generation customer-focused business solutions to be deployed seamlessly everywhere across all channels - no matter where you are.

Reseller models provide a useful way for businesses to extend their reach into any community and the ability to do so with an extremely deep integration means that you can deploy this system in whatever way works best. **Finclude** is revolutionizing the way people interact with their finances by providing unparalleled power and flexibility.

BENEFITS

- ✓ Produces lightning-fast transaction speed.
- ✓ Ultra low data usage.
- ✓ The entire application is language enabled and all screens, labels and messages can easily be customised.
- ✓ A simple web user interface.
- ✓ 24x7 e-wallet solution.

SYSTEM FEATURES

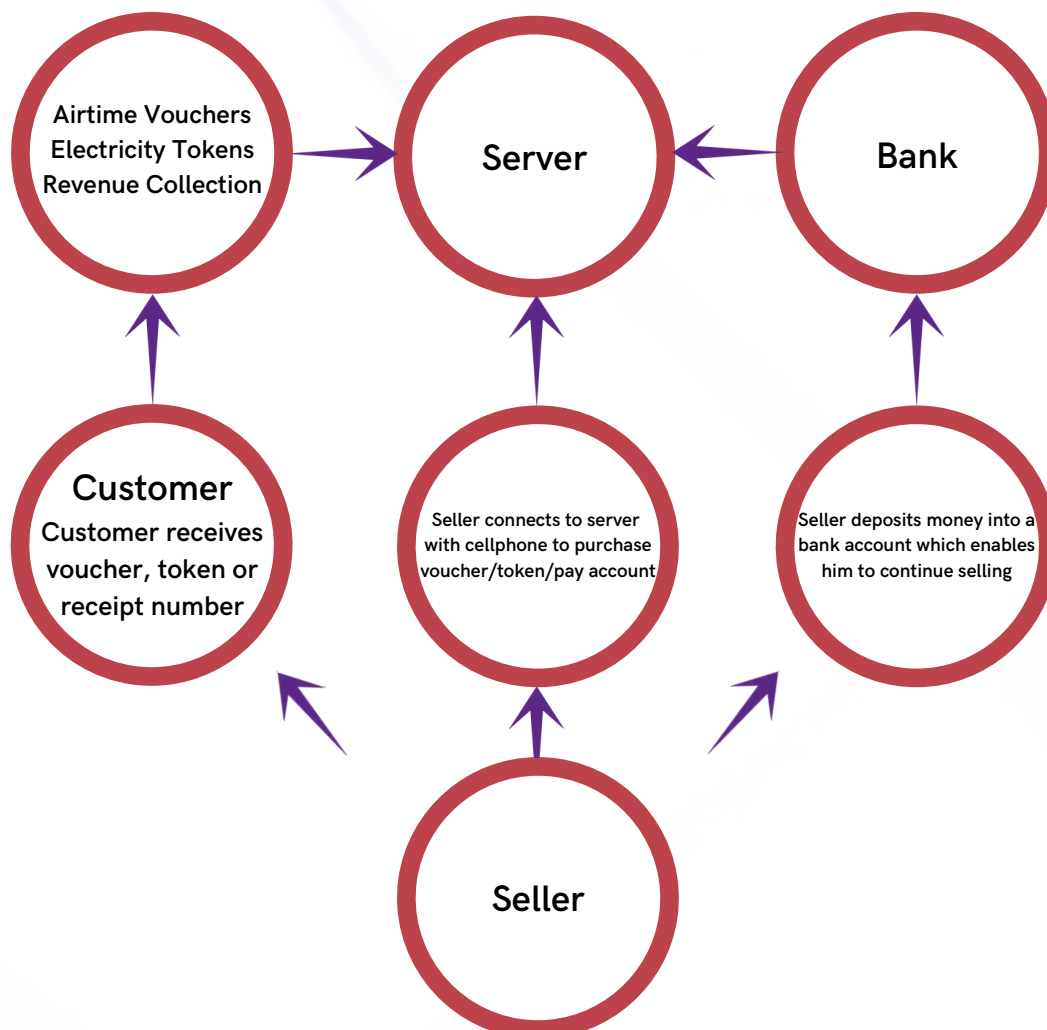

- ✓ Revenue collection.
- ✓ Account payments.
- ✓ Prepaid airtime.
- ✓ Prepaid Electricity.
- ✓ Community cash collection.

✓ THE CONCEPT

- Sellers are allowed to use their own mobile phones to vend to customers in formal and informal markets.
- Anyone is allowed to become a seller without any physical interaction or facilitating job creation.
- Promoting the viral growth by recruitment royalties whereby a seller who recommends another potential seller gets a small portion of that seller's profit.
- The seller's mobile phone is their complete POS solution and can both vend products as well as check balances, show sales & profit, recall previous transaction details etc.
- It allows for effective community collaboration where one vendor can do central banking, then can transfer credit to any number of vendors in exchange for cash.

✓ HOW IT WORKS

*Orchestrate Your Business With
Integrated Technology*
