ACCESS CONTROL, TIME & ATTENDANCE

Campus Management Solutions

WHO USES THE SOLUTION?

- Shift Managers
- Supply Chain Managers

Access Control, Time & Attendance

The Qmuzik Access Control, Time & Attendance solution will manage access control, time and attendance gates keys zones for your parking lot.

There are many different ways to define a natural person or organisation, but they all revolve around two key elements: associations between individuals and organisations.
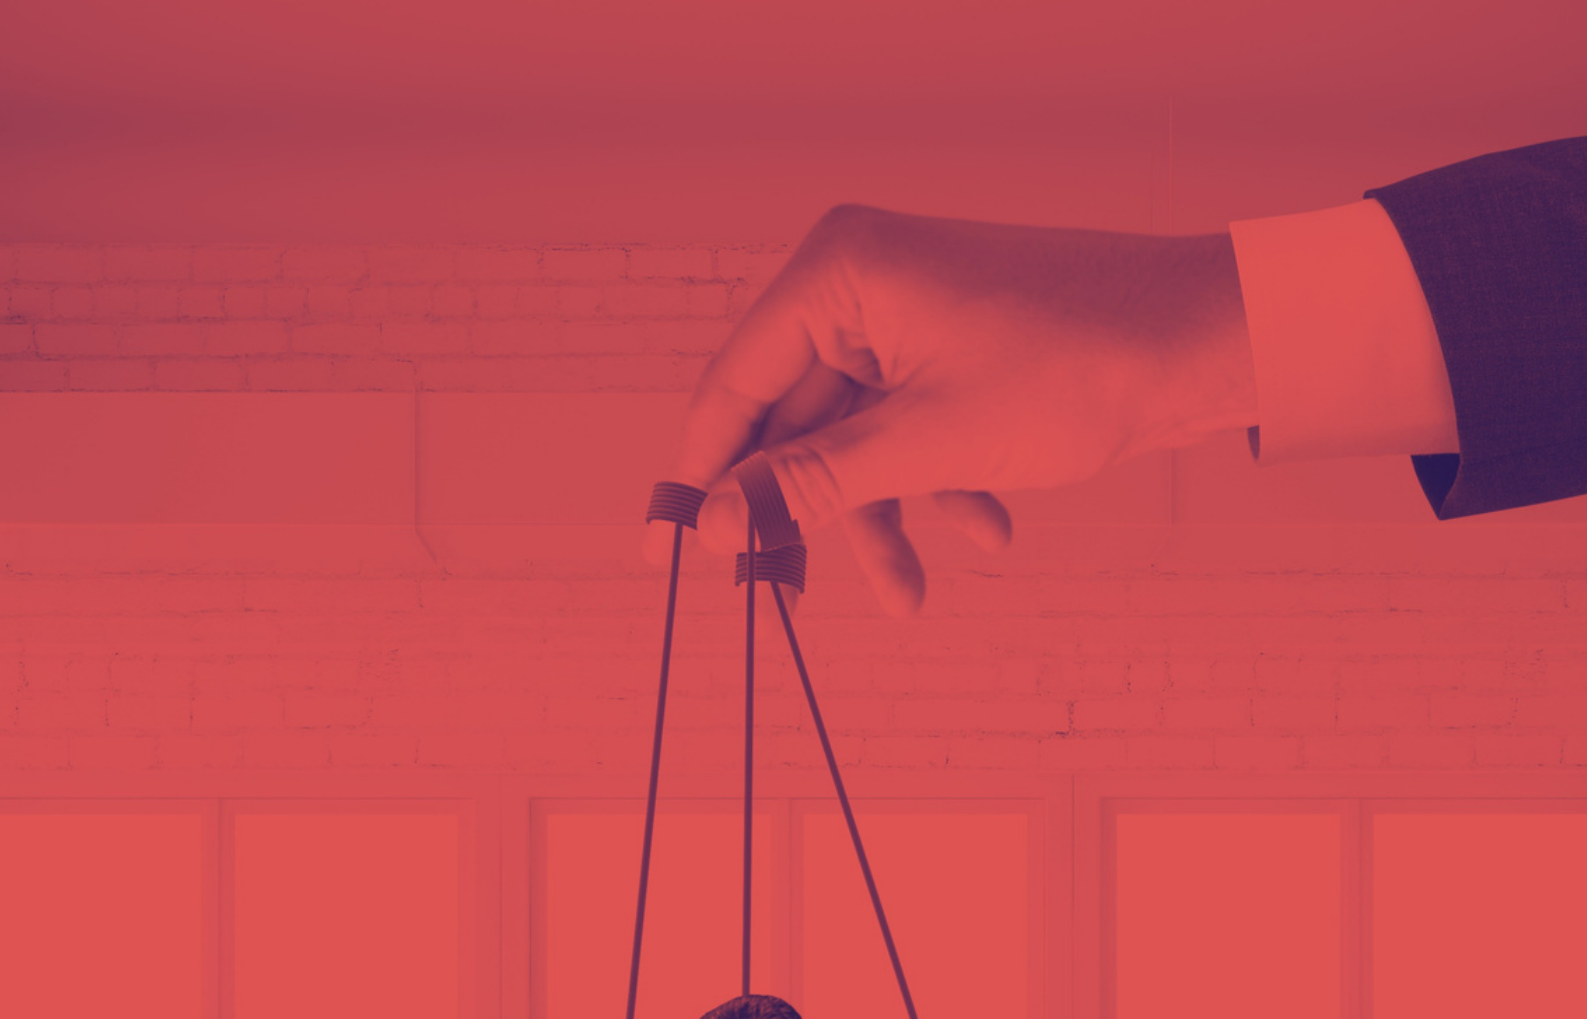

BENEFITS

- Comprehensive administration of physical card lifecycle (Issued, Lost/Stolen, Destroyed, Active, etc.)
- Manages stock of blank cards.
- Access rules can apply to certain schedules (e.g. working hours only, only weekends).
- Access can be controlled using zones (i.e. rooms, buildings, areas) rather than gates.
- Tracking can be based on any device (e.g. RFID zones), not only at gates.
- Controls a hierarchy of campuses, buildings, diverse zones, rooms, residences, outside areas and others – all interconnected via gates.
- Manages payments for parking allocations and all keys and issuance of keys to persons.

SYSTEM FEATURES

- Manages Personnel and Card Access.
- Manages the link between person and infrastructure.
- Time and attendance is tracked.
- Gates and zones are managed.
- Parking is managed.
- Keys (building/premises, etc.) are managed.
